Some of our goals include improving access to healthcare services, increasing knowledge and use of community and social service resources, and reducing barriers to services available to La Paz County residents and visitors.
Healthy La Paz Coalition	healthylapazcoalition@gmail.com	Healthy La Paz started as a group of local community service providers that came together to identify specific health issues within the community. These partnerships increase awareness of available health and social services to help eliminate gaps in the referral system. We encourage employers to maintain a healthy workplace through community wide wellness events and programs. Healthy La Paz is always changing and exploring different ideas to help decrease health disparities within the population. Healthy La Paz is dedicated to strengthening our community. On a monthly basis community partners come together to

		report, discuss and work in hand to deliberate current and future ideas. Please email us for more information on our meetings or to join our mailing list.
